- d. The anti-tank unit consists of a platoon leader and 12 to 15 men, divided into two sub-units, one of which is equipped with two antitank guns of British manufacture and the other with one unidentified anti-tank rocket weapon (sic).
- e. The two artillery companies are each composed of a second lieutenant, who is the commanding officer, and three platcons, the first and third being artillery platoons and the second a machine gun platoon. Each platoon is divided into three squads, the first and third being artillery squads and the second a machine gun squad. The company commanders, the platoon leaders, and the leaders of all squads are armed both with a pistol and a rifle. The weapons of the first and third squads are one sniper's rifle and eight 7.62 mm. rifles, Soviet model PPS. The weapons of the second are two 7.9 mm. machine guns of German Sarac model, and seven Mauser rifles.
- f. The machine gun company is composed of three platoons, each of which is made up of approximately 8 to 10 men. The company commander is Second Lieutenant Velimir Stojanic, 1 Platoon leader Borlvoj Antic, 2 Platcon leader Miloje Simic. The 3 Platcon is led by various noncommissioned officers who arrive periodicaly for maneuvers. The composition of the squad is as follows:

Squad leader, who is armed with a rifle and pistol.

- A gummer, armed with a pistol, who carries the machine gum.
- 3) An assistant gunner, armed with a rifle, who carries the machine gun tripod.

An observer, armed with a rifle, carries field glasses.

Two ammunition bearers, armed with rifles.

6) A wagon driver and an assistant wagon driver, both armed with rifles.

One horse.

8) Two riflemen, armed with Soviet rifles.

Unless otherwise specified, all rifles are Mausers of Yugoslav manufacture.

g. The mortar company is composed of three platoons, each made up of three squads. It is commanded by Standard-Bearer Ilijevski. Platoon leaders are students completing their military service. The squads are composed as follows:

Squad leader, armed with pistol and rifle.

- Gunner, armed with a pistol, carries the mortar tube. Second gunner, armed with a pistol, carries the bipod.
- Assistant gunner, armed with a pistol, carries the base plate.

Two ammunition bearers, armed with rifles.

- 6) An observer, armed with a rifle, carries field glasses.
- 7) One soldier, armed with a rifle, who has charge of the horse which carries the mortar over long distance.

Each squad has one mortar of an unspecified Italian model, produced in Kragujevac, and designed to fire Soviet shells.

h. The battalion service unit, composed of a platoon leader and 20 men is equipped with five horses and a small truck. The battalions stationed on the islands each have a small motorboat.
